## About Arrayit Corporation

Arrayit Corporation is a leading life sciences company providing innovative products and services to empower scientists and clinicians to explore the human genome as well as the genomes of plants and animals. Arrayit's worldwide business position leverages the company's widely used patented microarray manufacturing platform and revolutionary VIP™ genotyping technology. Nearly every major research center in the world uses Arrayit products including research laboratories, pharmaceutical companies, universities, biotechnology companies, hospitals, government agencies, and nonprofit research organizations. Novel insights into the function of genes and proteins, early stage disease diagnostics, better and safer medicines, and more nutritional crop plants are some of the many aspects of human health empowered by Arrayit technology.

Arrayit is an exciting and innovative public company that strives to increase shareholder equity by inventing, developing, manufacturing and supplying sophisticated life sciences products and services to an extensive customer base spanning 50 countries. The corporate philosophy is embodied by a highly skilled, multidisciplinary team of investors, business professionals, scientists, engineers and executive and support staff who place shareholder value, product quality, customer service and price competitiveness as our highest priorities. Arrayit empowers decisive strategic advantage and large return on investment for our customers in the research, pharmaceutical, diagnostic, and health care markets.
